Subject: FW: cost and vessel updates
Website--vessels not yet completed 1-25-07.xls
Website--vessels completed 1-25-07.xls
County Codes.xls

Ok Tammy, IT fixed my computer glitches so here are the updated files for the DVRP website in Excel. If we leave them in Excel will people be able to alter the version on the website? If we can make the files read only I would like to put them up as excel spreadsheets, if not please put them up as pdf files.
Thanks,
Melissa

Hi Tammy,
Please update the website http://www.dnr.wa.gov/htdocs/aqr/derelict_vessel/inventorypriorities.html
to:

Last update: 1/25/07
Click Here to see a list of the derelict vessels that have been reported but not yet removed.

Click Here to see a list of the derelict vessels that have been reported and removed.

These lists are arranged by priority level; within each priority level the list is arranged by Project ID number. The Project ID number consists of a two digit county code, the year the vessel was reported and the order in which the vessel was reported to DNR. For example PI06-008 would be the eighth vessel reported in Pierce County in 2006. Please note these lists do not necessarily correspond with the order of removal (or proposed removal).

The vessel lists change frequently but are updated on the website quarterly. If you need up-to-date information please contact dvrp@dnr.wa.gov or 360-902-1574.

The last paragraph can stay the same.

Thanks

Melissa Montgomery
